The above information is also available on the Company's website: www.concordgroup.in.

You are requested to take the note of the same.

Thanking you,

Yours Sincerely,
For Concord Control Systems Limited

Puja Gupta
Company Secretary and Compliance Officer

Encl: As above.

Concord Control Systems Secures ₹185.09 Crore KAVACH 4.0 Order from Indian Railways

The latest cutting-edge digital technologies aim to strengthen operational efficiency and passenger safety across the railway network.

Lucknow, February 05, 2026: Concord Control Systems Limited (BSE: CNCRD), India's leading manufacturer of embedded electronic systems and critical electronic solutions company, has secured a major order worth ₹185.09 crore for the supply, installation, testing, and commissioning. The order has been awarded through Progota India Private Limited, an associate company of Concord Control Systems, and is scheduled to be executed within the next 12 months.

KAVACH 4.0 is India's indigenous Automatic Train Protection (ATP) system, designed to enhance rail safety by preventing collisions, over-speeding, and signal violations. The latest version integrates advanced digital technologies to strengthen operational efficiency and passenger safety across the railway network.

Commenting on the development, **Mr. Gaurav Lath, Joint Managing Director, Concord Control Systems Limited, said**, *"This significant order is a strong validation of our technological expertise, execution capabilities, and long-standing partnership with Indian Railways. At Concord, we are deeply committed to strengthening India's railway safety ecosystem through indigenous, future-ready solutions. KAVACH 4.0 represents a major step towards building a safer, more reliable rail network, and we are proud to contribute to this national mission. This milestone reinforces our growth trajectory and underscores our focus on innovation, localization, and operational excellence as we expand our footprint in critical railway infrastructure projects."*

Mr. Nitin Jain, Joint Managing Director, Concord Control Systems Limited, stated, *"We are honoured to receive this additional KAVACH 4.0 order from Indian Railways, which reflects the strong confidence placed in Concord's technological capabilities and execution strength. This continued mandate reinforces our position as a trusted partner in India's railway safety modernization programme. We remain committed to delivering high-quality, indigenous solutions that enhance network reliability, operational efficiency, and passenger safety, while creating long-term value for all stakeholders."*

This landmark order further strengthens Concord Control Systems' position as a key contributor to India's railway modernization and safety initiatives, aligning with the government's vision of a technologically advanced and sustainable transport ecosystem. With a growing portfolio of mission-critical projects, the company continues to invest in advanced technologies and skilled talent to drive long-term value for stakeholders.

About Concord Control Systems Limited:

Concord Control Systems Limited (CNCRD) is India's leading manufacturer of embedded electronics systems and critical electronic solutions supporting India's next-generation rail infrastructure. CNCRD is an RDSO-approved OEM and technology leader delivering advanced electrical and electronic systems for Indian Railways. Aligned with the government's Gati Shakti initiative, Concord leverages state-of-the-art R&D, testing, and manufacturing facilities to deliver products that meet global quality and safety benchmarks, while ensuring zero-defect production and environmentally responsible practices.

CNCRD is a trusted partner in India's railway modernization and digital transformation journey. It aspires to step in railway technology on a global scale, expanding its footprint and tapping international markets. Its portfolio of robust, durable and high-performance systems is tailored-made for the extreme conditions of railway environments. CNCRD is shaping the future of mobility by anticipating emerging railway challenges and transforming them into opportunities through tech-enabled, innovative solutions.
